

CERTIFIED LIVENOTE MULTIMEDIA EXPERT

TWO-DAY COURSE IN SAN FRANCISCO

OVERVIEW

The Certified Multimedia Expert program trains legal videographers and post-production staff to optimize the quality of final deliverables for the LiveNote platform. The course spans best practices for capturing the record during the live depositions; preparing a complete multimedia record with the synchronized deposition video, transcript and linked exhibits; and providing clients with secure, on demand web access to final files.

INSTRUCTORS

Kathryn Filley Brown, Director of Video Services, LiveNote

Kathryn Filley Brown has worked in the film, television, and legal video industries for more than 25 years. Building upon her experiences as a deposition videographer, Kathryn now specializes in delivering high-tech video services to the legal industry. She has successfully established several video service divisions for legal technology companies, and since joining LiveNote, Kathryn has contributed to the development of products like LiveNote Stream and LiveNote VideoSite.

Josh Porter de León, Video Services Production Supervisor, LiveNote

Josh Porter de León is the Production Supervisor for the Video Services department. He began his career in film and television as the sound engineer, and has been in the litigation technology and services industry for nearly 10 years. He joined the LiveNote team in 2005, and as one of the company's instructors, he has certified more than 75 videographers and post-production professionals on LiveNote-compatible services.
